

GTPC-TS TEST!

**hificlass.**

09-November-2025

The **TEST** of our GTPC-TS Power Cable by “Hificlass” (11-2025).

Power, precision, purity in every detail.  
The best buy from Hificlass.

GTPC-TS is a power cable designed for systems where every nuance matters.

The non-magnetic brass connectors plated with 24-karat gold ensure a stable connection and minimal signal loss.

As Hi-Fi Choice wrote:

“GTPC-TS simply opens up the soundstage, organizes it, and lets the music breathe.”

The result? Greater clarity, precision, and a naturally balanced presentation - regardless of the system’s class.

GTPC-TS - a cable that proves how much good power can do. ⚡
