One of the most respectable German magazines "LP" dealing with the analogue audio and vinyl records published a great review of our tube amplifier TTA-500

**The International one**

**Mr. Holger Barske (Editor in chief):**

*"... each of the four tested devices (prices between 1700.- - 12.000 Euro) has its own character, but each provided a lot of fun in their own way what I have not seen for a long time. That also applies to the most affordable TAGA amplifier (about 1700.- Euro)!"*

**Summary:**

**„The TAGA TTA-500 is a thoroughly attractive device for connoisseurs and newcomers to the world of tube amplifiers. CLEAR RECOMMENDATION!“**
