An outstanding review and **ON TOP AUDIO 2018 award** for TAGA Harmony THDA-500T headphone amplifier by French "ON MAG" (02-2018).

Listening: a headphone amp that displays its personality, full of talent, vitality and generosity

Conclusion

"What beautiful hours in perspective will be able to pass with this Taga Harmony THDA-500T. It is endearing in sound as it is aesthetical. It plays its score a bit but remains true to the soul of music that stays above all else of emotion. At this price, it is almost unexpected."
